2. Eng. Erick Eliaita Meena

Eng. Meena is an outstanding, result oriented engineer with a solid foundation in project management, civil & structural engineering. He holds a Post Graduate Diploma in Project management- centennial College, that he acquired in Canada and a BSc in civil & Structural Engineering from the University of Dar Es Salaam, Tanzania.

He is a professional member of the Registered Professional Engineer in Civil and structural Engineering

Projects Portfolio:

i. Dar es Salaam Metropolitan Development Project

Involvement:

The World Bank's project to facilitate constructions of: (i) priority roads - local and feeder roads in the urban core to alleviate congestion hotspots, and support public transit, mobility, and connectivity to low income communities, especially improving accessibility to the bus rapid transit (BRT) system; and (ii) primary and secondary drainage systems - including bank stabilization, detention ponds, connection to the secondary network etc.

around five river basins of Dar es Salaam.

ii. The upgrading of Songea-Namtumbo-Tunduru road to Bitumen standard. Lot B Kilimasera – Matemanga section (68.2km).

Involvement:

a. Materials investigation and sampling ranging from identification of unsuitable roadbed, subgrade, base materials, overall borrow areas operation, identification of common excavation to spoil/fill section, field testing, evaluation of construction materials and record of construction materials storage according to governing specification.

Crushed aggregates class - CRR, C1 and other pavement layers.

b. Site supervision works including Subsoil drainage construction, Base & subgrade works construction, Quarry materials production quantities, day to day status of working equipment and overall weekly permanent works production quantities together with giving records of major problems hindering achieving targeted progress of the works at the particular assigned section.

c. Quality control matters and materials mix design including Concrete, Crushed aggregates class - CRR, C1 and other pavement layers.

d. Supervision ancillary works e.g. Road markings Works, Road signs, Guardrail Installation and Slopes protection works.

.

II. INFORMATION COMMUNICATION TECHNOLOGY PROJECTS

1.Nsaghurwe Alpha

Mr. Alpha is an Information and Communication Technology expert with vast experience in Information Systems, project design, implementation and management and He has vast experience with working with the health sector in transforming the daily operations of the key components of the sector into digital health.

Mr. Alpha is a holder of Master's in Business Administration (MBA), majoring in Corporate Business Strategies and a Post Graduate Diploma in Business Administration with a major in e-commerce

Project Protifolio:

Alpha as a Project Manager and Team Lead of the Implementation of Tanzania Health Information Exchange and Health Data Repository (HDR).

He leds implementation of Tanzania Health Information Exchange, a \$3 million USAID-funded project to integrate Tanzania HIS through interoperability layer of the Health Information Mediator (HIM), facilitating visualization of cross-cutting health indicators across continuum of care and supporting exchange of all HIV and TB service and commodity data from 14 legacy systems.

Directly managed financial (\$3 million budget) and human resources (10 employees) for the project. Enforced system and data security through encryption and anonymization of client level data provided by national, referral and specialized hospitals. Managed integration requirements development and system rollout to support data sharing from national and specialized hospital systems, HMIS, electronic Logistics Management Information System (eLMIS) (including vaccines and immunization), provider registry, and health facility registry.

Led the training of 15 subject matter experts (SMEs) from five national, specialized and referral hospitals in how to analyze and use data generated from their systems. SMEs were also trained on data quality and audit to improve the quality of information visualized through the HDR dashboard. Developed specific use cases to promote efficient system use and build capacities in use of data for programmatic decision-making.

Furthermore, Alpha has played a critical role in designing and managing implementation of the Integrated Logistics System (ILS) Gateway, a mobile based system that collects and reports to the central level, essential logistics data items that guide program level decision making. In his professional life Alpha supported other countries such as Zambia, Ivory Coast, Cambodia and Malawi on their evaluation, design, development and

implementation of their health information systems.

2. Teddy Qirtu Ntemi

Ms. Ntemi is a consultant with business management knowledge and Information Communication Technology expertise which she acquired from her academic experience and through many years of experience gathering in my career path.

She is well vast in areas of business development, projects management and system implementation, training, and maintenance.

She holds a Postgraduate Diploma in Finance Management and Bachelor Degree of Science with Computer Science Majoring Information Technology.

Project Portfolio

i. Tanzania HIM

Ms. Ntemi has foreseen the implementation of the Tanzania Health Information Mediator .A comprehensive interoperability platform that was designed to integrate all health related information systems through a mediator in order to harmonize the information and enhance effectiveness in data use of health information

ii. Artificial Intelligence for Health Sector

Ms. Niemi has led the implementation of an Artificial intelligence project for the health sector. This project aimed at creating awareness and building capacity for Ministry of Health staff, in adoption of artificial intelligence as an evolving technology.

iii. TACIP – Tanzania Crafts & Arts Identification Project.

As a Lead Project Manager in an in-house 5 years designed project in collaboration with Tanzania Federation of Crafts & Arts (TAFCA). My key roles, to plan and oversee project deliverables, fund management and work to re-cast the project implementation methodology.
